How to add topics in existing consumer

Doubt : by default topic name in producer in send message ?

How to subscribe to newly created topics for existing consumer

re arc :

Janaki Sundaresan's Personal Room-20211007 1035-1	EyBj84Wm

Consumer -
test cases -spy

Message handler - callback r in constructer

Producer:

Throw err r not ? - checkMessageFormat

Can we send single message during multiple topic r any flag needed ?

Field : for whom the be is triggered
